Author Kalpanik S. reveals his own smile as he tells the somewhat quirky story of his complex, and often hilarious, relationship with . From the sophisticated wit in his portrayal of the courtship period in "How To Get Hired By In Ten Days", to the dark

humor of the disillusionment period in "The Cold, Calculating Machine", Kalpanik's story is more than just an insider's view of the giant machine known as .com. It's a modern, universal story of the uneasy relationship between an individual and today's gargantuan corporations. In the end, it is also a story of redemption for creative and freethinking individuals that define America. **CONFESSIONS OF A FOREIGN BORN AUTHOR** I must confess that English is my third language, and even though I have employed three professional, native English editors, it is obvious-even to methat this book is written by a Foreign-born author. Foreign-born or not, I believe I have a talent for storytelling, and I have converted a dull topicthe transformation of from a retail website to a marketplaceinto an interesting, humorous and lively story. This is more of a little book than a big one. Being a technologist, I tend to be concise. The printed edition of this book is 221 pages on an 8-by-5.25-inch paper size. This may be too little for a few readers, too much for others, and just right for some. So, If you are looking for a 1,000-page treatise on written using ornate language, then this book may not be the right book for you. But you want a book which describes my unique personal experiences in a witty, clever and yet easy read, this is what you need. Please note that this is AN Story, not THE Story. Only one employee can write THE Story - Jeff Bezos, but he is kind of busy, so you will have to settle for this eBook. A book about can be pretty dry, so I have tried to add some humor. In my attempt to make this book funny, a few facts may have been stretched. I quote this passage from 21 Dog Years: Doing Time @ .com, written by Mike Daisey, a fellow alumnusturned author: Some facts were injured in the telling of this story. The truth, however, remains unharmed. That applies to this book as well. Enjoy! Kalpanik S. **ACCLAIM**As the author moves to Seattle to work for , he makes us feel that we are traveling with him, making us feel the vitality of the fast moving Tech world, we read the words on the page but live them in the theater of our imagination, feeling his every feeling. From authors very emotional yearning for acceptance in a new city, his second immigration, to the hilarious piece on Seattle's slacker sun, I found this story to be funny and yet poignantJohn Lehman, AuthorPrsentation de l'diteurTo celebrate the international success of this eBook - it is at #1 in its category in Kindle stores in several countries, we are offering it 0.77 in UK (0,89 in Continental Europe) for for one week.
