Description :

Prsentation de l'diteurIt seems like every time a new mother turns on her computer, radio, or television, she is greeted with news of yet another scientific study about infancy. Ignoring good information isnt the right course, but just how does one tell the difference between solid studies, preliminary results, and snake oil? In this friendly guide through the science of infancy, Science of Mom blogger and PhD scientist Alice Callahan explains how non-scientist mothers can learn the difference between hype and evidence. Readers of Alices blog have come to trust her balanced approach, which explains the science that lies behind headlines. The

Science of Mom is a fascinating, eye-opening, and extremely informative exploration of the topics that generate discussion and debate in the media and among parents. From breastfeeding to vaccines to sleep, Alices advice will help you make smart choices so that you can relax and enjoy your baby.Prsentation de l'diteurIt seems like every time a new mother turns on her computer, radio, or television, she is greeted with
